**VENTUREWIRE****EndoGastric Solutions Secures \$50M**

*December 01, 2015*

**EndoGastric Solutions Inc .**, a medical device company that aims to give surgeons access to a patient's esophagus and stomach without incisions, has raised \$50 million in funding, according to a news release.

CRG, formerly **Capital Royalty L.P .**, led the funding round. Other investors in the round included **Advanced Technology Ventures** , **Canaan Partners** , **Chicago Growth Partners** , **Foundation Medical Partners** and **Radius Ventures** .

The Redmond, Wash., company **raised \$30 million** in Series G funding in May 2014. Previous investors include **De Novo Ventures** and Oakwood Medical Investors.

The company said it would use the new funding to begin broad-scale commercialization, as well as making further research-and-development investments in next-generation products.
